Education

2003–2009   **Ph.D. in Electrical & Computer Engineering**, *National Technical University of Athens*, Greece.
Ph.D. Thesis: Image Analysis and Computer Vision: Theory and Applications in the Restoration of Ancient Wall Paintings
Advisor: Prof. Petros Maragos

1998–2003   **Diploma/M.Eng. in Electrical & Computer Engineering**, *National Technical University of Athens*, Greece.
GPA: 9.54/10 (highest honors), ranked in top 1% of the class
Diploma Thesis: Fast Algorithms for the Evolution of Geodesic Active Contours with Applications in Computer Vision (*Advisor*: Prof. Petros Maragos)

Research Experience

2009–now   **Postdoctoral Research Scholar**, *University of California, Los Angeles*.
Member of the *Center for Cognition, Vision, and Learning* (CCVL),working with Prof. Alan Yuille. Research in computer vision, image analysis, and machine learning. Main projects:

Efficient *Perturb-and-MAP* algorithms for random sampling and parameter learning in large-scale Markov random fields (NSF, AFOSR, & ONR-MURI, 2010–now).

Building whole-image probabilistic models from patch-level representations (NSF, 2011–now).

2003–2009   **Graduate Research Assistant**, *National Technical University of Athens*, Greece.
Member of the *Computer Vision, Speech Communication & Signal Processing* (CVSP) group (cvsp.cs.ntua.gr). Participated in national and European research projects in the areas of computer vision and multimodal processing:

PENED: Thesis work on digital restoration of the ancient wall paintings at the pre-historic settlement of Akrotiri, Thera. On site detailed photographic acquisition. Creation of high-resolution mosaics. Research on image inpainting techniques for digitally filling-in missing parts of the wall paintings.

MUSCLE & HIWIRE: Research on facial image analysis and multimodal feature fusion for audiovisual speech processing. Development of a real-time audiovisual speech recognition prototype.

ASPI: Research on speech inversion (recovery of vocal tract geometry) using audiovisual information.

Summer 2006   **Visiting Researcher**, *Trinity College Dublin*, Ireland.
Project: Image inpainting with complex wavelets. *Mentor*: Prof. Anil Kokaram.

2001–2003   **Undergraduate Research Assistant**, *Demokritos Nat. Center for Scientific Research*, Greece.
Member of the Demokritos' Institute of Informatics & Telecommunications, participating in the European research project *WIN*. Worked on design and deployment of wireless WAN network and development of Internet services. Contributed in writing research proposals for follow-up funding. *Mentor*: Dr. Stelios C.A. Thomopoulos.

Scholarships and Awards

2006–2009	**Onassis Public Benefit Foundation**, Graduate studies scholarship.
2007	**IEEE International Workshop on Multimedia Signal Processing (MMSP)**, Student paper contest runner up award.
2004–2007	**Greek State Scholarships Foundation**, Graduate studies scholarship in the area of artificial intelligence and its applications.
1999–2003	**Latsis Public Benefit Foundation**, Undergraduate studies scholarship.
2001	**Technical Chamber of Greece**, Award to top ranking students in the School of E.C.E.
2000–2001	**National Technical University of Athens**, Papakyriakopoulos (awarded twice, 2000 and 2001) and Kritikos (2001) awards for excellence in mathematics.

Teaching Experience

2010–now	**Group Seminar**, *UCLA*.
	Organized our group's weekly seminar. Led discussion on several of the presented papers.
2009–now	**Student Mentoring**, *UCLA*.
	Helped in supervising the research of PhD, MSc, and visiting students in our group.
2006–2009	**Graduate Teaching Assistant**, *National Technical University of Athens*, Computer Vision class (School of E.C.E., 8th semester), *Instructor*: Prof. Petros Maragos.
	Served as lab and teaching assistant. Contributed to student homework grading and development of new lab exercises and teaching material. Assisted diploma thesis students working on computer vision projects at the CVSP group.
2007-2008	**Guest Class Lectures**, *National Technical University of Athens*, Computer Vision class (School of E.C.E., 8th semester), *Instructor*: Prof. Petros Maragos.
	Gave invited class lectures on optical flow computation and image modeling in scale-spaces.

Invited Talks and Presentations

2011	**EPFL, Lausanne, Switzerland**, *Perturb-and-MAP Random Fields*, *Host*: Prof. M. Unser.
2011	**UAB/Computer Vision Center, Barcelona, Spain**, *Perturb-and-MAP Random Fields*, *Host*: Prof. M. Vanrell.
2010	**Akrotiri Excavation, Thera, Greece**, *High resolution photo capture and digital restoration of missing parts in the wall paintings of Thera*, Princeton Univ. and Akrotiri Excavation 2010 Summer School – Reassembling and Studying the Thera Frescoes.
2009	**PENED Workshop**, *Digital Restoration of Missing Parts in the Wall Paintings of Thera*, PENED project Workshop: Digital Cultural Heritage Technologies with Applications at the Pre-Historic Settlement of Akrotiri-Thera.
2009	**Demokritos Nat. Center for Scientific Research, Athens, Greece**, *Multiresolution image models with application to image segmentation and digital restoration of missing parts in ancient wall paintings from Akrotiri-Thera*, *Host*: Dr. G. Potamianos.
2009	**Akrotiri Excavation, Thera, Greece**, *Capturing high resolution photos and automatically filling-in gaps in Theran wall paintings*, Princeton Univ. and Akrotiri Excavation 2009 Summer School – Reassembling and Studying the Thera Frescoes.
2009	**Institute for Language and Speech Processing, Athens, Greece**, *Audiovisual speech analysis*, *Host*: Dr. A. Vataki.

2008	**University of California, Los Angeles**, *Multi-resolution techniques for efficient image analysis and modeling*, UCLA Image Processing Research Group, *Host*: Prof. L. Vese.
2007-2008	**Real-time audiovisual speech recognition demonstrator**, Presented at the demo session of three IEEE conferences (MMSP-07, ICASSP-08, CVPR-08).
2006	**Trinity College Dublin**, *Feature uncertainty in multimodal fusion and learning*, SIGMEDIA group, *Host*: Prof. A. Kokaram.
2006	**MUSCLE Workshop**, *Multimodal fusion: Application to audiovisual speech recognition and audiovisual speech inversion*, MUSCLE Network of Excellence Workshop, Paris.
2005	**MUSCLE Workshop**, *Audiovisual speech recognition*, MUSCLE Network of Excellence Workshop, Paris.

Professional Activities

Journal Paper Reviewing

IEEE Transactions on Pattern Analysis and Machine Intelligence (2006–now), IEEE Transactions on Image Processing (2005–now), International Journal of Computer Vision (2006), IEEE Transactions on Multimedia (2010–now), Pattern Recognition (2008–now), Signal Processing (2010–now), Image and Vision Computing (2011–now), IEEE Signal Processing Letters (2009–now), IEEE Transactions on Systems, Man, and Cybernetics – Part B (2011–now), SIAM Journal on Scientific Computing (2010–now), EURASIP Journal on Advances in Signal Processing (2010–now), EURASIP Journal on Image and Video Processing (2009–now).

Professional Memberships

Institute of Electrical and Electronics Engineers (IEEE) (2003–now), Association for Computing Machinery (ACM) (2003–now), Society for Industrial and Applied Mathematics (SIAM) (2008–now), Technical Chamber of Greece (2004–now).

Open-source Research Software

2008	**GAC++**, *A C++ toolbox for geometric active contours and other related PDE-based computer vision models*, (GPL license).
2008	**AAMtools**, *A MATLAB toolbox for building active appearance models and fitting them to still and moving images*, (GPL license).

Computer Skills

Programming, Proficient in C/C++, Matlab. Working knowledge of OpenGL, Java.

Other, System administration (Linux, Windows), document processing in LaTeX.

Languages

English (Fluent – Cambridge ESOL CPE/ CEFR level C2), **German** (Good – Goethe Institut ZMP/ CEFR level B2), **Spanish** (Basic), **Greek** (Native)

Scientific Publications

Journal Articles

[1] G. Papandreou, A. Katsamanis, V. Pitsikalis, and P. Maragos. Adaptive multimodal fusion by uncertainty compensation with application to audiovisual speech recognition. *IEEE Transactions on Audio, Speech and Language Processing*, 17(3):423–435, March 2009.
